

Delivering financial engineering instruments with Structural Funds

Athens Investment Summit

Athens, 26 February 2016

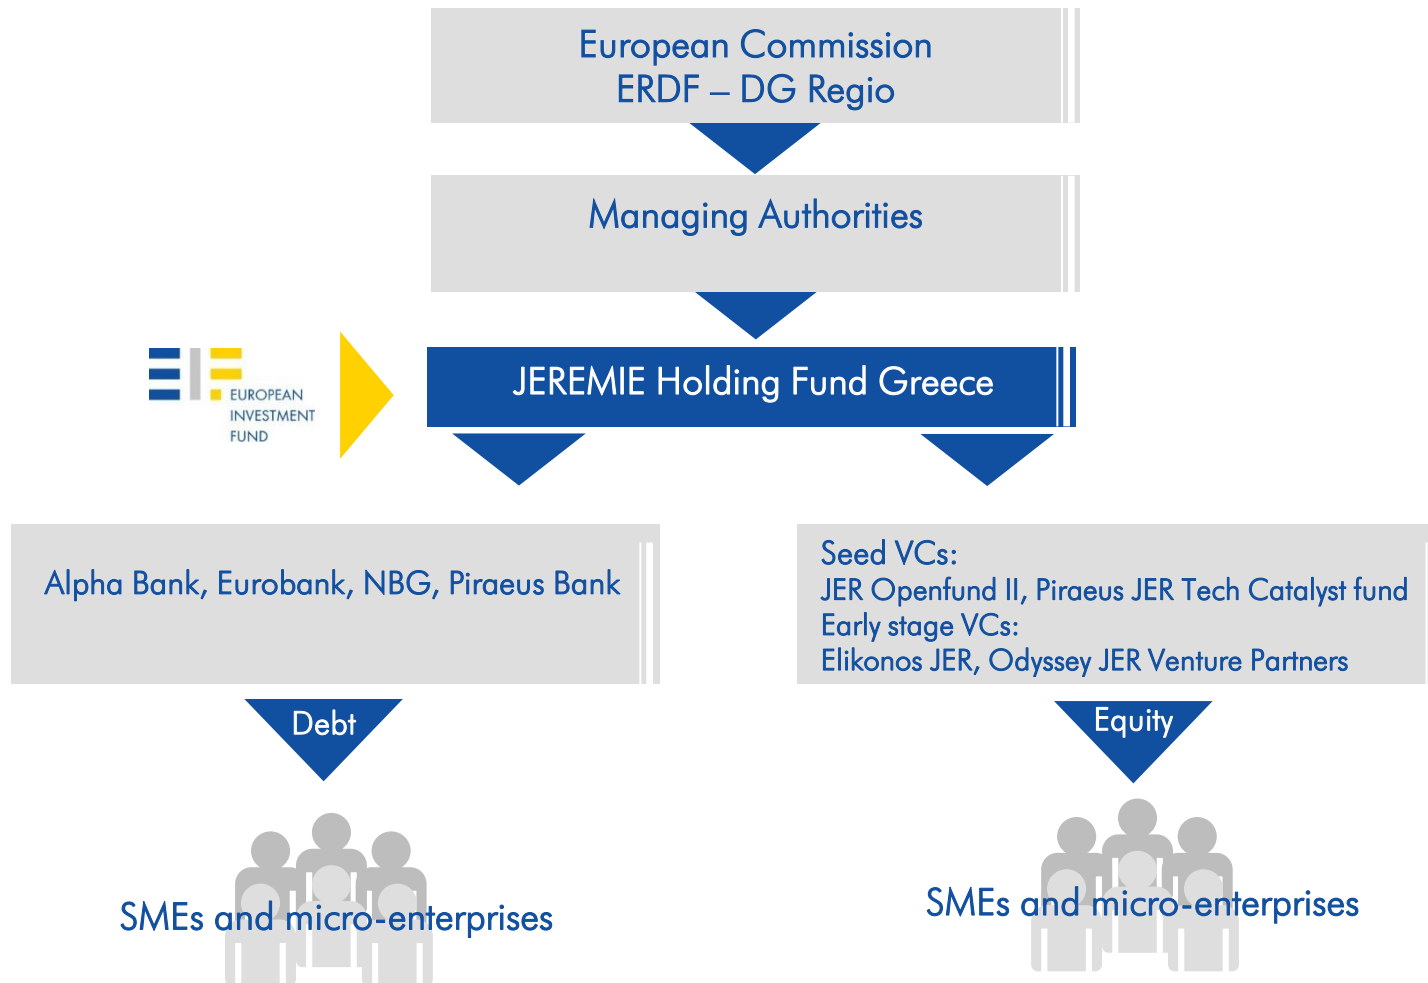

Delivering financial engineering with Structural Funds

Added value of FEIs

- Contributions from intermediaries result in **more funds** becoming available for the benefit of SMEs
- Due to **revolving nature**, funds repaid may be recycled, while ultimately they will form national resources
- Allow for **transfer of know-how** to regions, thus helping develop sustainable risk capital markets at the local level

JEREMIE Greece

The impact of JEREMIE

- Leveraging of public resources through mobilisation of private resources
- Access to finance for SMEs at reduced cost
- Transfusion of know-how in the market
- Access to finance for start-ups
- Creation of new jobs
- Support of entrepreneurship, innovation, extroversion
- Strengthening of the local VC ecosystem
